BOYS' CLOTHING.

One of the largest departments in the store, one which is yet only in its infancy. When we talk of Boys' Clothing we want the mothers' attention. The mothers are excellent judges of the material and workmanship in Boys' Clothing. The father's favor may be captured with the manly fit of the new suit on the little fellow, but the mother looks closer, she looks at the quality and the finish, the seams, the button holes and the other little details which are never slighted in our Clothing. The mother is also a good judge of good value. It is the mother's inspection which we court for our Boys' Clothing. We have Boys' Suits at \$1.50, \$1.75, \$1.90, \$2, \$2.25, etc., etc. Figures on paper won't do. We must have the values. Mothers come and see for yourselves.

NAPANEE, FRIDAY, APR. 27, 1894.

The Old Policy is losing its efficiency when the man from Shanty Bay and McCarthy, one of its godfathers, have forsaken it.

Mr. LAURIER puts the matter very forcibly when he says that to get a surplus in the treasury Mr. Foster has caused a deficit in the people's pockets.

With \$240,189,703 as the total nett debt of Canada on March 31st, compared with \$237,613,602, on March 31st 1893, Mr. Foster's surplus shows the value of expert book-keeping.

W. F. McLEAN, M.P., manufactures boiler plate for newspapers on which there is a duty of 150 per cent. This probably accounts for the strength of "Billy's" whoops for the N. P.

An annuity of \$200,000 a year paid for the maintenance of the rice industry in Canada, which only gives employment to 75 men, is a pretty blamed expensive way of encouraging manufacturing.

A St. JOHN bookseller vouches for the statement that an invoice of books valued at \$52.17, on which the duty at the old rates would have been \$7.80, had actually to pay, under the new, \$26.67, or more than 50 per cent.

From Mowat's surplus of four millions of dollars the Province derives a substantial return in the shape of interest; Foster's surplus is a little matter of book-keeping peculiar to the Tory government and the heathen Chinese.

The government still propose to keep the tax on luxuries as much as possible and accordingly the duty of 100 per cent on coal oil will still be retained, while at as early a date as possible high class French wines will be placed on the free list.

A Tory M. P. says the reason that the Canadian manufacturer cannot compete with the English manufacturer is because the latter has no protective duties to pay. It is really too bad to handicap the poor Canadian manufacturer in this way, and it will be the bounden duty of the Liberal party, if elected, to relieve him from it.

THERE is 53 Patron candidates in the field for seats in the Ontario Legislature. There is one peculiarity, though. All the leading men are aspiring to the Commons, so that even if a considerable number of Patron candidates be elected to the Local House they will be like a ship at sea minus a rudder without a capable leader.

SENATOR BLAINE is reported to have said that he did not see why such a person should be his enemy as he had never done anything for him. The truth of this is just now being exemplified in the action of the Patrons of Industry, who in turning against Sir Oliver Mowat are opposing a man who has spent the best days of his life legislating in their interest and for their benefit.

COMMENT on the following from the Ottawa Journal is unnecessary:—

"The Journal received yesterday from the American Press Association a box of stereotype plates, value nine dollars. These plates are taken by the Journal because the two Canadian plate factories do not afford the necessary variety and choice, and sometimes not the necessary quality. Upon this consignment, invoiced at nine dollars, the Journal paid \$11.79 duty, or over 130 per cent."

THE BAD packing of Canadian apples is militating against their popularity in England. Too many people put large juicy fruit in the ends of the barrels, and scrubby dried up culls in the centre, and the Englishmen won't

but there is a limit to human endurance and if the Canadian apple sellers wish to retain a profitable market for their fruit it will be to their interest to act on the square.

THE National Policy instead of causing tall chimneys to loom up in every ten acre plot in the country, as Tupper rosiely predicted, has killed out small manufacturers, depopulated the country, impoverished the people and left the government to the miserable gutterfuge of writing down in the census (to make any showing at all) as manufacturers, every little dressmaking establishment, run by one woman with one or two girls learning to sew, who as a general rule worked for nothing and boarded themselves.

If MR. FOSTER's new tariff bill is all the relief the farmers are going to get from the government, then God help the farmer, says The Sun, the organ of the Patrons of Industry. While it is all right to invoke God's help, it would be well for the farmers to bear in mind that the Lord helps them that helps themselves, and as they possess the power to remedy the existing evils by turning out the rascals that have been so long fattening at the public crib they need not expect assistance to come from on high if they neglect to avail themselves of the opportunity when it again presents itself.

MR. LAWRENCE VANKOUGHNET, in the civil service employ, received an intimation from Mr. Daly, Minister of the Interior, a short while ago, that as his physical health and mental vigor was failing, a request for superannuation would be favorably received. Mr. Vankoughnet wrote back that he was only 56 years of age, enjoying excellent health and had no desire to resign his position. Mr. Daly, however, must have the position for one of his friends and made a recommendation that Mr. Vankoughnet be superannuated, which was in due course acted upon. Mr. Vankoughnet's forcible retirement will cost the country \$2,112 a year, the amount of his retiring allowance.

Holloway's Pills.

Impurities of the Blood.—To ensure health it is absolutely necessary, that the fluid and solids of the human body should be kept free from those impurities which are continually getting admission into the system by erroneous living, unwholesome atmosphere, or disordered stomach. The only safe and certain way to expel all impurities is to take Holloway's Pills which have the power of cleansing the blood from all noxious humors, and at the same time removing any irregularities which their presence may have already produced in any organ. Holloway's Pills expel all humours which taint or impoverish the blood, which they purify and invigorate, and give general tone. They are applicable to all alike—young or old, robust or delicate.

A grand exhibition entitled "Uncle Tom's Cabin" under the mammoth pavilion of Mr. Geo. Burtch at Hay Bay on Saturday the 5th day of May, 1894. The aboye is not like the silly imitations that sometimes appear in our midst but a genuine historic account of that wonderful treatment of Master to Slave in the Southern States before the Civil War of Emancipation; all to be seen in 6 acts, 22 tableaux and 30 scenes, which the most refined and cultured would enjoy, as it embraces morality and sublimity with all the marked improvement of new and beautiful scenery with the truest original music such as the Jubilee Singers of the Old Plantation Days accompanied by banjo players, castnet players and shout singers all perfectly moral and entertaining to the most fastidious person. The whole entertainment will be enlivened by a first class band and orchestra. Admission 25 cts., children 15 cents. A very large percentage will be given towards the new church in course of erection at Hay Bay. Mr. N. Woodcock will carry passengers free of charge with his new and commodious boat on that occasion. On Sunday next the different lodges of the I.O. O. F. will attend service at the Western Methodist church. It was discovered last week that the members of the Camp would show their distinct importance by all wearing silk hats, and at once the members of the subordinate lodges determined to do likewise. The result has been that after exhausting all the borrowable plugs in town orders for new tiles were given so fast that our merchants have in a few days sold more silk hats than have been disposed of during the same number of years; and now if the boys have to dress from the hat down our tailors will be kept busy and a brisk run of trade may be expected to liven the dull out look which the seed time gives our town.

PARISH NEWS

Church of S. Mary Magdalene.

Sunday next (V Sunday after Easter) there will be a special celebration of the Blessed Sacrament for the purpose of affording an opportunity to the newly confirmed members of the church (though not exclusively for that purpose) to make their first communion. It is recommended that those communicants who have neglected their duty in this respect in the past, will embrace this opportunity for turning over a new leaf. A special service of preparation, open to the congregation at large, was held in the church on Thursday evening last.

The appeal made by Miss Brown on behalf of her mission at the Piegan Reserve, has resulted in an effort to get ready a bale to be forwarded to her forthwith. Contributions—clothing, toys, materials, (almost anything will be of use), groceries, (say a pound of some article from each family), may be sent to Mrs. Chas. McGreer's, on Bridge street, where the bale is to be packed.

The Bible Class held on Sunday afternoon is now thrown open to both sex. The class begins at 8 p.m. in the body of the church.

Parish of Bath.

On Tuesday evening, 23rd April, an adjourned vestry meeting took place which was attended by fifteen members, when considerable business laid over from a former meeting was transacted. The utmost harmony prevailed. The rector appointed as his warden Dr. Northmore, and Mr. F. W. Armstrong was unanimously elected by the people as their warden. The other officers of the parish for the ensuing year are: Lay Delegates—F. K. Baker, (3 years), Dr. H. S. Northmore, (2 years), Dr. Kennedy, (1 year). Treasurer, D. T. Rowe. Sidesmen—Charles Davy, John Bain, Archie Davy, Dr. Kennedy. Finance Committee—Thomas Bain, James Woodhams, I. M. Loyat, Archie Davy and Dr. Northmore. Vestry Clerk—F. K. Baker.

A resolution was passed in favor of observing a special parish "Arbor Day" in the near future, and a committee named to superintend the work of planting trees, shrubs and flowers, clean and level the ground and otherwise improve the appearance of the cemetery.

A resolution was carried unanimously warmly thanking Mrs. Sherman Broadwell, of Asbury Park, New Jersey, for her kind gift to St. John's church, of a handsome polished brass Altar Desk, made by Geissler, New York, in memory of the late Rev. George W. Doane, 2nd bishop of New Jersey, who confirmed her and priested the rector, Rev. E. H. M. Baker.

By unanimous consent the pews were declared to be free and open to the public at all Sunday evening services.

The finances were shown to be by the churchwardens' audited statement, in a satisfactory condition, there being balances to the credit of the various funds amounting in all to at least \$90.

The Confirmation Service.—Church of S. Mary Magdalene.

On Thursday of last week a very interesting service was held in this church by His Grace the Archbishop of Ontario, at which 57 candidates were presented by the rector of the parish. These numbers would have been greater except for the ravages of death and sickness. Three candidates have passed from death unto life since the class was begun last autumn and four others, all adults, were prevented by unavoidable causes from being present. One of these, however, was confirmed on the day following, when His Grace went to the sick bed of the young man and there laid hands upon him in the presence of the members of the family and a few of the clergy. Such acts of sympathy and thoughtfulness on the part of our Father go far to account for the unity and good feeling and the absence of party strife which, happily, characterize this diocese of Ontario. The confirmation service is always a popular one, and that this is the case was abundantly shown by the presence of large numbers of our friends, who filled the church to overflowing. We regret that this should have militated somewhat against the success of another appointment made for the same evening by one of the congregations in town, but this was a matter entirely beyond the control of those responsible for fixing of the date. At the appointed hour the Bishop and clergy entered the church from the school room, preceded by the male candidates walking in procession, the female candidates dress-
